{ REQUEST & RENEW }

Make requests for items and manage your requests online. If you go on vacation or TDY and are expecting something to come in, you can "freeze" the request until you return so you do not lose your request.

Also, view your check outs to see when your items need to be returned.

If you haven't quite finished, you may renew the item online if no one else requested it or you haven't already renewed it too many times.

{ UPDATE YOUR ACCOUNT }

If you want to use a different e-mail address to access My Account or receive notifications, update your mailing address, or provide a deployed mailing address (check our deployed brochure for more information), just log in and choose "update account". You can also update your PIN.

If you notice your account is about to expire, call the library with your new DEROS date to ensure you can still use online services.

{ MY LISTS }

To help manage the list of movies or books you have been meaning to get to, you can make "wish lists". You can make a list to keep a bibliography for research, homework, or anything else you may want to check out.

Also, check us out on your mobile device today!

{ RATINGS & REVIEWS }

Give your opinion and rate something! Warn others if that book you just read was terrible, or give a movie five stars for exceptional cinematography. If you want to describe why you feel the item was good or bad, write a review! Tell us, and everyone else, what you thought.

{ MY SEARCHES }

If you are typing the same search all the time, just save it! We will remember the search for you. Not only that, if you check "mark for email", every Monday we will send you an e-mail list of any new items that match your search query.

{ READING HISTORY }

The library does not keep a history of what you have checked out, but having that list can be very helpful. You can opt in to start a history of items you have checked out (and opt out at any time) for your own personal use. With this feature, you can also limit your searches to not show items you have already checked out.

{ PERSONAL RSS }

Don't like waiting until the next morning to find out you have something waiting for you? You can be instantly notified you have something to pick up with your own personal RSS feed. For security reasons, it does not include specific information, so log into My Account to get more information.

{ BOOKS DOWNRANGE }

Request books while you are deployed to keep yourself busy. You must have a My Account and let us know to set up your account to send books downrange.

For more information, please ask for our services for deployed soldiers or visit www.library.eur.army.mil/services/deployed
